

AUTHORISATION LETTER FOR PENETRATION TESTING

(English Version)

1. Purpose of this Letter

This Letter of Authorisation (“Authorisation”) confirms that the Client grants explicit permission to **Robert Richards Cybersecurity** to perform authorised cybersecurity testing activities against the systems defined in the Scope below.

The purpose of the testing is to identify security vulnerabilities and weaknesses in order to improve the Client’s security posture.

This Authorisation is intended to clearly demonstrate that the activities described herein are **legitimate security testing conducted with the full knowledge and permission of the Client.**

2. Parties

Authorised Testing Provider

Robert Richards Cybersecurity
[Business Address]
[City, Postal Code]
Germany

Contact:
Email: robert.richards.cybersecurity@gmail.com
Phone: <phone>

Client / System Owner

Organisation: _____

Legal Entity Name: _____

Registered Address: _____

City / Country: _____

Primary Contact: _____

Title / Role: _____

Email: _____

Phone: _____

3. Scope of Authorised Testing

The Client expressly authorises Robert Richards Cybersecurity to conduct cybersecurity testing against the following assets.

Authorised Domains

Authorised IP Address Ranges

Authorised Applications

Authorised APIs / Services

Authorised Cloud Infrastructure

Additional Authorised Assets

4. Explicitly Excluded Assets

The following systems are **out of scope and must not be tested**:

5. Authorised Testing Activities

The following security testing techniques may be used where applicable:

- vulnerability scanning
- manual penetration testing
- authentication and authorisation testing
- network enumeration
- application security testing
- configuration review
- exploitation of discovered vulnerabilities for proof-of-concept purposes

The following activities are **not permitted unless explicitly authorised in writing**:

- ☐ Denial-of-Service testing
- ☐ Social engineering attacks
- ☐ Physical security testing
- ☐ Phishing campaigns
- ☐ Password spraying or brute-force attacks

6. Testing Period

Start Date: _____

End Date: _____

Testing Window (if applicable):

7. Client Confirmation of Authority

The Client confirms that it:

1. owns or has legal authority over the systems defined in the Scope
2. grants explicit permission for Robert Richards Cybersecurity to conduct the testing activities described in this document
3. has obtained any necessary internal approvals required for the testing
4. accepts that testing may generate security alerts within monitoring systems

8. Legal Basis under German Law

This Authorisation is issued to confirm that the testing activities described in this document are **authorised by the system owner**.

This authorisation is relevant with regard to potential offences under German criminal law, including but not limited to:

- Strafgesetzbuch §202a
- Strafgesetzbuch §202b
- Strafgesetzbuch §303a
- Strafgesetzbuch §303b

The Client's consent confirms that the testing activities are **authorised security testing conducted with the explicit approval of the system owner**.

9. Third-Party Systems

Where systems hosted by third-party providers (e.g. cloud providers, hosting providers, SaaS platforms) are included in the Scope, the Client confirms that:

- testing such systems is permitted under the applicable service agreements; or
- necessary permissions from the relevant providers have been obtained.

10. Incident Handling

During testing, if critical vulnerabilities or operational issues are identified, Robert Richards Cybersecurity will notify the Client's designated contact.

Emergency Contact

Name: _____

Phone: _____

Email: _____

11. Confidentiality

Both parties agree that all vulnerabilities, findings, and security information discovered during testing shall be treated as **confidential information**.

Disclosure to third parties requires written consent from the Client unless required by law.

12. Validity of Authorisation

This Authorisation is valid only for the systems listed in Section 3 and only for the testing period defined in Section 6.

Any testing outside the defined Scope or timeframe requires **written approval from the Client**.

13. Signatures

By signing this document, the Client confirms that the testing activities described herein are authorised.
